PILLARS OF SUCCESS

VISION

To be an Internationally Respected Engineering Consultant offering Comprehensive Solutions.

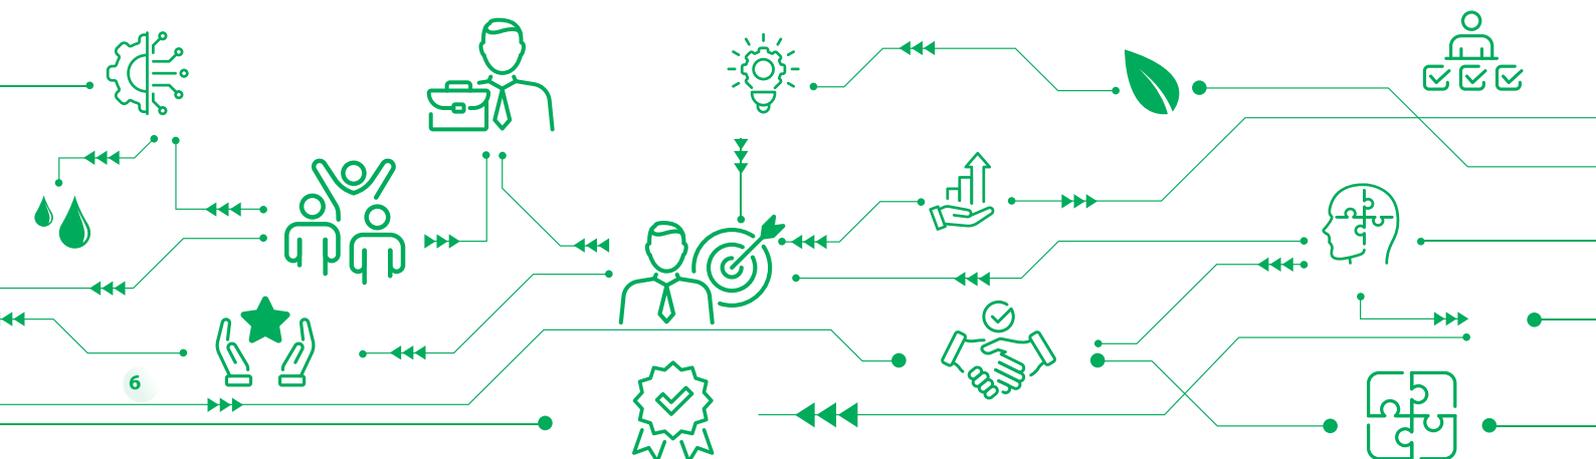

MISSION

Provide Technically Excellent and Innovative Solutions for adding Value to all Stakeholders and Operate Globally as Professional Consulting Engineers.

VALUES

- Customer Satisfaction & Loyalty
- Technical Excellence with Professional Ethics
- Responsibility to Society
- Employee Dignity & Self-respect
- Organisational & Individual Growth

VALUE DRIVERS

CUSTOMER FOCUS

At TCE, staying alive to the customer's needs is paramount. Customer focus is a key parameter of employee goals, thus maximising customer loyalty and fostering a culture of customer first.

SYSTEM MINDSET

The system mindset of the Company ensures parity of experience and delivery to its customers. Applications such as SmartSite™ and Suraksha deliver real-time and paperless project management experience.

INNOVATION CULTURE

TCE encourages a creative mindset by motivating employees to participate in ePride and Tata Innovista contests. The Company also has a mechanisms to capture value additions at the project level and a platform to share the learnings with other project teams.

WORLD CLASS TALENT

People are TCE's most important asset and the Company believes in constantly upskilling its talent to keep pace with changing times. TCE ensures an inclusive, innovative, meritocratic and people-centric culture.

INDUSTRY EXPERTISE

TCE's deep domain expertise across various industry segments gives the Company a competitive advantage and helps design out-of-the-box technical solutions to save customer time and money.

TATA VALUES

TCE is committed to integrity and adhering to the Tata Code of Conduct (TCoC) developed by the Tata Group. The Company has institutionalised well-thought-out stringent practices and processes to ensure a high standard of ethical conduct and compliance.

THOUGHT LEADERSHIP

As thought leaders in the industry, TCE holds the merit of shaping industry mindset, leading new domains, delivering complex & unique projects and value engineering.
