PERSONAL

Jose is native from Peru. He enjoys hiking the Andes mountains

Jose Vega is Vice President, Chief Financial Officer and US Country Head at Tata Consulting Engineers USA. A seasoned finance executive with over two decades of leadership experience, he has built deep expertise across financial management, strategic planning, corporate governance, mergers and acquisitions, treasury, business performance and operational excellence. As a member of the senior leadership team, Jose plays a pivotal role in shaping the organisation's financial strategy, strengthening governance and enabling sustainable, long-term business growth.

In his current role, Jose leads the finance function while providing strategic leadership as US Country Head. He is responsible for corporate finance, financial planning and analysis, treasury, risk management and accounting, while also overseeing the IT and Human Resources functions. Working closely with the Board and executive leadership, he drives financial discipline, operational efficiency and governance, ensuring the organisation remains well positioned to deliver sustainable value for clients and stakeholders.

Jose joined TCE USA, formerly CDI Engineering Solutions, in 2003 and has held several leadership positions of increasing responsibility. Before being appointed Chief Financial Officer in 2019 and subsequently Interim US Country Head, he served as Vice President of Finance for the Engineering division and Director of Financial Planning and Analysis, supporting the organisation's global operations. His broad leadership experience has enabled him to successfully navigate business transformation, strengthen financial performance and support strategic growth initiatives.

Prior to joining TCE USA, Jose worked as a financial consultant with the World Bank and the Inter American Development Bank, partnering with the Peruvian Government on programmes focused on public education and property rights. He also supported non profit organisations in Philadelphia through pro bono consulting, helping strengthen their funding strategies and financial sustainability.

Jose holds a Bachelor of Science in Industrial Engineering from Universidad de Piura, Peru, and an MBA in Finance and Entrepreneurship from the Wharton School, University of Pennsylvania.
