PERSONAL

Inquisitive explorer and avid learner, keen to discover new destinations and explore history. Enjoy strategic challenges with deep appreciation for cricket and chess. Love relaxing to the rhythm of Indian music.

With over three decades of experience in delivering complex infrastructure programmes, Amit Mukherjee is a seasoned business leader with expertise across transportation, energy, water, manufacturing and the built environment. His experience spans the complete project lifecycle, from strategy and investment planning to engineering and project delivery. Currently, as Head, Infrastructure Business Unit at Tata Consulting Engineers, a wholly owned subsidiary of Tata Sons, he leads the business with responsibility for driving growth, strengthening strategic client partnerships and delivering integrated engineering solutions that create sustainable value for clients and communities.

Under Amit's leadership, the Infrastructure Business Unit is focused on delivering innovative, sustainable and technology-driven engineering solutions that address the evolving needs of clients across transportation, water and the built environment. He is committed to expanding TCE's market presence, strengthening organisational capability, nurturing future leaders and fostering a culture of collaboration, operational excellence and customer centricity.

Recognising the rapid transformation of the infrastructure sector, Amit champions the adoption of digital engineering, integrated project delivery and advanced technologies to improve project outcomes, optimise asset performance and enhance delivery efficiency. His leadership reflects TCE's commitment to engineering infrastructure that is resilient, future-ready and aligned with the principles of sustainability and long-term value creation.

Before joining Tata Consulting Engineers, Amit spent over twenty-five years with Mott MacDonald, where he led landmark infrastructure programmes across railways, metro systems, urban infrastructure, manufacturing and healthcare. He worked extensively with governments, corporates, commercial banks and multilateral funding agencies across India, South Asia and the Middle East, contributing to projects that strengthened infrastructure development and supported sustainable economic growth.

Amit is a Chartered Financial Analyst and holds a Post Graduate Diploma in Business Administration (Marketing) along with a Bachelor's degree in Mechanical Engineering. He has authored technical papers, spoken at leading industry forums and actively mentors young professionals, reflecting his commitment to engineering excellence, knowledge sharing and developing the next generation of infrastructure leaders.
