Mozammel Biswas is the Business Unit Head for the Hydrocarbons and Chemicals Business at Tata Consulting Engineers (TCE), bringing over 30 years of experience across engineering, project management, business development, and strategic leadership in the hydrocarbons, refining, petrochemicals, and chemicals sectors. A long-standing leader within TCE, he has played a significant role in shaping and expanding the organisation's Hydrocarbons and Chemicals business into a strong and globally competitive engineering and project management practice.

As Business Unit Head, Mozammel leads the overall business strategy, growth, profitability, and delivery performance of the Hydrocarbons and Chemicals portfolio. He is responsible for driving business expansion, strengthening client partnerships, and enhancing operational excellence across multidisciplinary engineering and project management services. Under his leadership, the business continues to strengthen its market presence while delivering complex and large-scale programmes across domestic and international markets.

Mozammel combines strong technical expertise with strategic business insight. His experience spans the complete project lifecycle from concept development and engineering design to project execution and commissioning. He has successfully led diverse teams across complex industrial projects, ensuring high standards of quality, safety, delivery discipline, and commercial performance.

Over the course of his career, he has held several leadership roles across engineering, project delivery, and business development. Prior to becoming Business Unit Head, he served as Associate Vice President and Head of Sales for the Hydrocarbons and Chemicals Business Unit, where he played a key role in driving market expansion, strengthening customer engagement, and securing major project opportunities. His earlier engineering and project management assignments provided him with deep domain understanding and a strong execution foundation.

Mozammel is recognised for his ability to build high-performance teams, foster client confidence, and drive sustainable business growth in a rapidly evolving energy landscape. His leadership style is collaborative, execution focused, and strongly aligned to long-term value creation.

With a strong foundation in chemical engineering and extensive industry experience, Mozammel continues to guide the Hydrocarbons and Chemicals Business towards innovation, operational excellence, and future-ready growth.
