

TATA CONSULTING ENGINEERS
ENGINEERING A BETTER TOMORROW™

PROJECT & CONSTRUCTION RESOURCE SOLUTIONS

Specialized Talent | Scalable Support | Stronger Project Delivery

✓ About Tata Consulting Engineers

Since 1962, **Tata Consulting Engineers** has supported global industries with integrated engineering and project delivery expertise across **Hydrocarbons and Chemicals, Power, Mining and Metallurgy, and Advanced Facilities**. Rooted in the legacy of the Tata Group, we help clients design, build, modernize and operate **safe, efficient and sustainable assets**. Guided by our purpose of **Engineering a Better Tomorrow**, we support responsible growth and future-ready transformation worldwide.

Our **Project and Construction Resource Solutions** provide project-ready engineering, technical and construction management professionals through flexible staffing models. We help organizations respond quickly to shifting project needs, access niche expertise and optimize workforce costs without compromising on quality, safety or compliance.

✓ What We Deliver

TCE provides **project-ready technical, engineering and construction professionals** to strengthen client teams during any phase of a project from design and planning to construction, commissioning and operations.

This is not general recruitment; it is **specialized technical resourcing for complex industrial environments**, backed by the knowledge, systems and credibility of one of the **world's leading engineering consultancies** with a large presence in the US.

✓ Our Service Offerings

Technical Resourcing

Specialized staffing for engineering, project controls, construction management and technical roles. Ideal for:

- Contingent labor
- Short-duration or peak-demand assignments
- Niche, hard-to-fill engineering skills

Managed Services

Strategic workforce programs including:

- Long-term manpower planning
- Multi-site staffing models
- Workforce governance and vendor coordination
- Co-employment risk mitigation

On-Site Resourcing

Deployment of engineering and design teams directly at client locations for:

- End-to-end project execution support
- Brownfield and greenfield project needs
- Agile mobilization for urgent requirements

✓ The TCE Advantage

Engineering-Led Resourcing

Because we are engineers first, we understand:

- Industrial plant operations
- Safety, compliance and regulatory expectations
- Technical nuances of each discipline

This ensures precise evaluation and reliable deployment of project-ready professionals.

Best-in-Class Systems and Processes

- Advanced recruitment and assessment technology
- Robust safety training modules
- Program management tools for real-time visibility
- Dedicated account managers for responsive support
- Digital onboarding and compliance systems
- Local presence across key US regions

Stability and Depth

- More than 60 years of proven delivery and organizational stability
- Established US offices across the Gulf South, Mid-Atlantic, Northeast, Midwest and Texas
- Strong talent retention supported by competitive benefits and continuous training
- Fully integrated Technical Resourcing teams aligned with TCE's engineering divisions
- Long-tenured employees and enduring client partnerships built on trust and performance

✓ A Proud Record of Success

TCE currently supports over **250 technical professionals** across industrial facilities in the United States. Our clients include leading operators and manufacturers in the energy, chemicals and industrial sectors. Many partnerships extend over three decades, reflecting consistent delivery, strong safety adherence and long-term value creation.
